General Population Summary

Custody Operations

38 Actual Population General Population is defined by the SOMS variable: SOMS Bed Program Assignment (BPS), which replaces DDPS variable: Housing Program Assignment (HPAS), with following programs assignments: Behavior Modification Unit (BMU); Camp (CMP); Enhanced Outpatient (EOP); General Population (GP); HIV Housing (HIV); Institution Hearing Program (IHP); Substance Abuse Program (SAP); Sensitive Need Yard EOP (SEO); Sensitive Needs Yard (SNY); Sensitive Needs Yard Out-Patient Housing Unit (SOH); Transitional Housing Unit (THU); Work Crew (WC). This is a sum of inmates whose SOMS BPS code value is BMU, CMP, EOP, GP, HIV, IHP, SAP, SEO, SNS, SNY, SOH, THU, or WC on the last calendar day of the reporting month.

DDPS / SOMS

General Population

40 Budgeted Capacity This is the total of Budgeted General + Budgeted CAMP in PSU / IAS Monthly Budgeted Staff Capacity report.

IAS

41 Actual Population The Actual GP count is the sum of the inmates whose SOMS variable: Bed Program Assignment has code value: 'GP', 'CAMP', or 'WC'.

DDPS / SOMS

Enhanced Outpatient Program (GP Housing Program)

43 Budgeted Capacity Count Budgeted capacity per IAS (PSU) - This field counts beds. This is the number of budgeted beds as reported on the IAS Staff Capacities report under the column heading "EOP Budgeted Capacity." The EOP Budgeted Capacity refers to a budgeted Housing Program under General Population, not necessarily all offenders with an EOP diagnosis. This excludes, for example EOP offenders housed in Administrative Segregation or other non-GP programs

IAS

44 Actual Population The actual population of diagnosed EOP placement in need is the sum of inmates who have been assigned to designate EOP beds identified by their SOMS variable: Bed Program Assignment (BPA) with Code = 'EOP'; plus the inmates whose Mental Health Code='C*' but haven't been assigned to designate EOP beds on the last calendarday of the reporting month. This count excludes inmates who have been assigned to ASU or SNY or PSU.

DDPS / SOMS

Sensitive Needs Yard

46 Budgeted Capacity Count Budgeted capacity per IAS (PSU) - This field counts beds. This is the number of budgeted beds as reported on the IAS Staff Capacities report under the column heading "SNY Budgeted Capacity."

IAS

47 Actual Population This is the sum of inmates whose SOMS variable: Bed Program Assignment code value is 'SEO', 'SNS', 'SNY', or 'SOH' on the last calendar day of the reporting month.

Minimum Support Facility

Custody Operations

49 Budgeted Capacity

Count Budgeted capacity per IAS (PSU) - This field counts beds. This is the number of budgeted beds as reported on the IAS Staff Capacities report under the column heading "MSF Budgeted Capacity." The MSF count is calculated by reporting beds for the 21 Camp institutions. This field will show '0' on reports for those institutions not budgeted as a MSF institution. ***CCC has a unit outside its security perimeter, Arnold Unit, which according to the IAS shows its capacity in the Level I although it is actually a different facility/unit. It is identified in SOMS as an MSF because an inmate must have Minimum B custody to be housed there. This population is not added to the population summary as it is intended for the Camp pipeline inmates. Arnold Unit is used specifically for the fire fighter training program***

Contraband Surveillance Watch (CSW)

Custody Operations

215	Average Number of Days on CSW (CYTD)	<p>The average number of days on Contraband Surveillance Watch (CSW) for the current calendar year through the reporting month. This value is calculated as the sum of CSW placement days beginning in January of the current calendar year through the reporting month at an institution divided by the count of inmate placements on CSW beginning in January of the same calendar year through the reporting month at the same institution.</p> <p><i>Formula</i></p>
216	Count of CSW Items Recovered	<p>The count of items recovered during an inmate placement on Contraband Surveillance Watch (CSW) in the reporting month. Contraband item(s) recovered may be drugs, weapons, cellular phones, and other (unspecified) items. If no contraband items are found, a zero is recorded. Certain contraband items may be lost due to the inmate's digestive process resulting in less contraband items found than the true number of contraband items. The count of contraband items found may be larger than the count of inmate placements as multiple items may be found during a single inmate placement on CSW. A placement is defined as a stay on CSW beginning in the reporting month at an institution. Reporting month is defined as the first day of the calendar month through the last day of the calendar month.</p> <p><i>DAI Monthly CSW Data Export to COMPSTAT</i></p>

294 Inmate Capacity Suspended until the DRP/DAI Workgroup realigns this section. Previously named Quota, it is defined as the highest total number of inmates who may be assigned/enrolled to an Education class. Total capacity for each teacher does not fluctuate from month-to-month. Regardless of the number of students assigned/enrolled to a classroom, the capacity does not change. For Vocational Teachers ensure the total Equivalent Capacity is at 27, and can be just Full Time, just Half Time or a combination of both. Notification must be given to the Office of Correctional Education as well as Adult Programs if total equivalent Capacity is above or below 27.*Vacant positions also carries a capacity

425 **Budgeted Positions** Enter the number of all Support Staff budgeted positions, excluding Support Staff positions from Medical and Education. A clarification to the Jan 2011 decision to switch to self-reported data noted that certain classifications should be counted as Support Staff even if their bargaining unit would normally include them in another category. Chaplains (Catholic Chaplain, Jewish Chaplain, Muslim Chaplain, Native American Spirit Leader, Protestant Chaplain) will be categorized as Support Staff rather than Medical staff. Support Services Assistant (Interpreter) will be categorized as Support staff rather than Medical staff.

563	% of personnel hours spent on preventative maintenance	$X = (\text{PM Hours} / (\# \text{ of Staff} \times 173.3)) \times 100$ Run the POM report "Work Order Summary," capture the total number of available staff located on the total line under "# of staff." Multiply this figure by 173.3 (the average number of working hours in a month for 168/176 schedule). Treat this as 'available hours' for the month. Capture the total under 2 for "Preventative Maintenance." Divide the "Preventative Maintenance hours' by the 'available hours,' then multiply the figure again by 100 to arrive at the percentage. The SAPMS report used in this calculation - the "POM" report - does not associate hours worked with the month the work was completed, but rather SAPMS associates the hours worked in the month that the PM work order ticket was closed out. A delay in recording the closure of a ticket or the closure of a number of large, multi-month ticket may introduce some skewing in the percentage. In an extreme case, the hours worked on tickets closed in a given month may exceed available personnel hours. <i>Institution Reported</i>
